

End-to-end data engineering pipeline

Brazilian E-commerce (Olist) · Apache Spark + dbt + Apache Airflow · WSL2 / Windows

SKILLS DEMONSTRATED

Medallion architecture

Bronze → Silver → Gold layers

Incremental loads

45-day maturity window

dbt macros

Reusable date functions

Dev/prod environments

Separate schemas per env

Data quality tests

Generic + singular tests

Airflow orchestration

DAG with retries & alerts

Spark optimisation

Partitioning, JDBC writes

WSL2 local stack

Full stack on Windows
